## CHIROPRACTIC IN AUSTRALIA

### WHAT IS CHIROPRACTIC?

Chiropractic is a drug and surgery free modality of treatment concerned with the diagnosis, management and prevention of mechanical disorders of the musculoskeletal system (spine); this includes the effects of these disorders on the function of the nervous system and general health.

### WHO ARE CHIROPRACTORS?

Chiropractors focus on the detection and correction of abnormal spinal function and its subsequent effect on how the nervous system controls and coordinates the body. Chiropractors in Australia are nationally registered and regulated healthcare professionals.

### CHIRO FACTS

300,000 Australians visit a chiropractor every week.

There are over 5,500 registered chiropractors in Australia.

Australian chiropractors study at university for minimum five years.

## THE PEAK BODY REPRESENTING CHIROPRACTORS

The Australian Chiropractors Association (ACA) is the leading voice for chiropractors in Australia and a member-centric organisation actively working to further the profession of chiropractic. ACA is the strongest advocate for the chiropractic profession, engaging with government, stakeholders and the public to promote the benefits of chiropractic care and influence health policy for the future.
